ARCHIEV KUMAR

New Delhi | archiev.kumar19@gmail.com | 9810468557 | Product Portfolio

AI Product Manager with 5+ years across edtech, telecom, and AI-native products, driving 0→1 builds, LLM-powered tools, and platform innovation. Hands-on expertise in prompt engineering, human-in-the-loop evaluation systems, and cross-functional product delivery.

EDUCATION

Netaji Subhas Institute of Technology, Delhi 2015–2019

B.E., Instrumentation & Control Engineering | GPA: 7.46

Academic Achievements

- **UPSC Civil Services Exam:** Reached Interview Stage, ranked among Top **0.23% of 1M+ candidates** nationally; demonstrating elite analytical, strategic, and domain depth

Technical Skills: JIRA, Figma, Python, Tableau, APIs, GitHub, Prompt Engineering, LLM Eval Frameworks, RAG, Agile/Scrum

WORK EXPERIENCE

Setu Labs : Co-Founder & Product Head (UPSC Setu) July 2026 – Present

Building an AI-native UPSC answer evaluation platform leveraging multi-agent LLMs, OCR, and RAG to democratise access to expert-level subjective feedback for Civil Services aspirants.

Key Achievements

- **Architected a 5-stage multi-agent AI pipeline** (Router → Chief Examiner → Evaluator → Quality Auditor → Formatter) on GCP Vertex AI (Gemini), enforcing UPSC Bell Curve grading rubric - live in production with roughly 50 active beta users
- **Built Gemini-powered OCR + LLM answer evaluator** - extracts handwritten UPSC answers, classifies subject, generates ideal benchmark, and delivers structured feedback on introduction, body, conclusion, and value additions (*Supreme Court cases, data, constitutional articles etc.*)
- **Owned full-stack architecture** (Next.js 15 Turborepo, Supabase/PostgreSQL, Vercel edge); resolved serverless timeout and GCP rate-limit constraints via SSE streaming; integrated **Razorpay payments**, **diagnostic analytics engine**, and **gamified leaderboard**

Vision IAS : Product Manager (AI) March 2025 – June 2026

Building AI-native assessment and classroom intelligence products at VisionIAS's innovation arm, serving 1M+ learners across 25+ states.

Key Achievements

- **Led end-to-end PM for EvalFlow** (AI-augmented answer evaluation) → achieving **>95% OCR accuracy**, **0.90+ Pearson correlation** with SME scores, and **<2% hallucination rate** via RAG grounding on NCERT/UPSC syllabi; engineered human-in-the-loop SME approval gates.
- **Drove LLM prompt engineering and model evals** for subjective grading, MCQ generation, and content summarization, achieving **subject routing F1 >0.92** across Humanities and STEM pipelines.

Product Development & Innovation

- **Prototyped AI Digital Classroom ecosystem** – ASR transcription, LLM-based summarization, structured notes, and multilingual doubt resolution (chat/voice) into a single end-to-end learning loop.
- **Built internal Question Generation Platform**, replacing manual email workflows with a structured creation-review portal for **35+ faculty**, reducing content TAT significantly.

VisionIAS : Assistant Manager - Academic & Product Operations Aug 2022 – Feb 2025

*Bridged academic domain and product teams for India's leading UPSC platform (**₹195Cr+ revenue**), translating ground-level insights into features serving 50,000+ aspirants.*

Key Achievements

- **Served as primary stakeholder interface** between 35+ faculty and product team, driving feature discovery for **Test Series Dashboard & Study Tracker** – improving student goal-tracking and performance visibility workflows.

Product Development & Innovation

- **Owned content operations** for UPSC Mains & Prelims – managed a team of creators and evaluated answer copies, leveraging deep domain expertise to raise content quality benchmarks.
- **Established structured feedback loops** between students, mentors, and engineering, surfacing pain points that shaped product iterations across study planning and test analytics modules.

Bharti Airtel : Assistant Product Manager, (Young Technical Leader Program) Jun 2019 – Aug 2020

Contributed to end-to-end product development of the Airtel Work App, driving field staff productivity across a pan-India network of 400+ stakeholders.

Key Achievements

- Fast-tracked to core product responsibilities within **12 months (vs. 24-month avg)**, delivering 3 major product releases across engineering, operations, and field management
- **Conducted end-to-end user research** – surveys, interviews, and focus groups – translating field staff pain points into product improvements, contributing to **18% reduction in customer complaints** (***3.5K → 2.9K/month***)
- **Spearheaded product roadmap** for Airtel Work App across ~400 field engineers and senior managers, achieving **4.2-star Playstore rating** and 100% adoption through 20+ onboarding and KT sessions.
- **Directed migration of legacy workflows to digital platforms**, coordinating 10+ vendors to virtualize 500+ network nodes ensuring seamless stakeholder alignment.

Indian Institute of Science, Bangalore : Research Assistant May 2018 – Aug 2018

- Published **Elsevier Sensors & Actuators B** (*novel Hg^{2+} detection device, LOD 0.1 ppb, below WHO/EPA limits*) and **IEEE Xplore** (*AI-based IoT Home Automation*) at **NeuRonICS Lab, IISc**.

EXTRA-CURRICULARS

- **Marathoner** | **Brazilian Jiu-Jitsu Athlete** | Interested in International Relations, Philosophy, and AI Ethics
